

William F. Renzulli, P.S.A.
803 Madison St., Paducah, KY 42001

William Renzulli is a self-taught artist who left his 9-year practice of internal medicine in 1981 to pursue a career in art. For 20 years he divided his time between art and medicine, and since 2002 has devoted all of his time to art.

Working with watercolor, Renzulli's early work focused on architecture and the built environment, depicting townscapes, and urban landscapes. In recent years his primary medium has been pastels, clay mono typing, acrylics, and a variety of mixed mediums. The landscapes have become more rural, but the architectural elements persist

Renzulli's paintings have been exhibited in numerous solo and juried shows. He has been commissioned to create both commemorative prints and original work for a number of institutions, schools, and corporations. He has had numerous paintings accepted into the Pastel Society of America's annual juried show and has won awards in two of those years. In 2002 he was awarded signature membership in the Pastel Society of America.
